

AIM

OBJECTIVE

1

Promote consistency in the EnvCoW role

- 1.1 Establish an EnvCoW Charter for AEnvCoW Supporting Organisations
- 1.2 Prepare Standing Advice Note (SAN) for planners, consenting bodies and regulators, regarding temporary works / construction phase EIA reviews and the role of an EnvCoW.
- 1.3 Develop, and run, a series of EnvCoW webinars/ events for industry (consultancies / Local Authorities / developers, policy and decision makers, regulators, professional institutes etc.
- 1.4 Increase awareness, and presence, on LinkedIn, with relevant industry, and AEnvCoW, information/updates.

2

Raise Professional Standards

- 2.1 Work with industry stakeholders, including CEOs of major companies and regulators (e.g., Environment Agency, Natural England, Natural Resource Wales etc), to promote best practice (Guidance Note & SAN) on the role of an EnvCoW.
- 2.2 Campaign for better regulation: develop a Technical Note for regulatory reform regarding CDM Regulations for the environment
- 2.3 Participate in Government Consultations to highlight the need for independent EnvCoWs and CDM Regulations for the environment
- 2.4 Partner with Professional / Industry Institutions (eg. CIEEM, CIWEM, IEMA, Institute of Environmental Science, Scot Env Link) to promote the EnvCoW role
- 2.5 Work with partners and professional institutions to draft new Position Statements on construction contracts & procurement routes and commissioning
- 2.6 Publish, and promote, Industry Guiding Principles with IEMA
- 2.7 Publish, and promote, NEC contracts & EnvCoW article
- 2.8 Implement the Funding Strategy

3

Develop Training, Skills & Research

- 3.1 Support training providers through endorsement and review of training courses.
- 3.2 IGP#2 - Develop a AEnvCoW Good Practice Guide for EnvCoWs, including new EnvCoWs in the role
- 3.3 Carry out a members survey to collect evidence base for research
- 3.4 Provide research proposals to universities to promote research on EnvCoW reports - building an evidence base to support better regulation/regulatory change, including international opportunities, such as the Netherland, South Africa and Singapore.
- 3.5 Continuously improve and run the Introduction to EnvCoW course
- 3.6 Continue to deliver a high-quality conference

4

Community Support for Members

- 4.1 Annually review/update AEnvCoW membership benefits, including signposting appropriate mental well-being resources to members
- 4.2 Identify and promote opportunities for informal networking between members
- 4.3 Proactively manage members forum
- 4.4 Collect and publish (anonymised) case studies/examples of good/ bad practice
- 4.5 Introduce EnvCoW Best Practice Award
- 4.6 Implement the Funding Strategy
